McShane's Nursery to close Nursery Department. Landscape Supply to Remain Open.

SALINAS, CA—McShane's Nursery & Landscape Supply announced today that effective **September 30, 2017**, it will close its nursery operation located on Hwy. 68. The landscape supply portion of the business will remain open. The reason for the closure is market conditions and recent weather patterns. All plant material will be part of a massive "clearance sale" through the last day of operations.

"It has been a pleasure offering nearly two acres of quality plant material and garden products to some of the greatest customers," shared McShane. "The nature of the retail nursery industry is just changing and here at McShane's we've got to change with it to stay viable," continued McShane. McShane's will continue to offer landscape supplies at the same address seven days a week. The nursery property will go up for lease by the property owner.

McShane's Nursery & Landscape Supply was founded in fall of 2005 under one destination for "Outdoor Living." Moving forward, the focus will be on quality natural stone, plants, fountains, pond supplies, bark, soil and design services.
